

NOMINATED BY ACCLAMATION

BY DEMOCRATS IN CONVENTION.

Mayor Tom L. Johnson

Selected as the Standard Bearer for
the Coming Campaign.

Eloquent Speech of Acceptance

A Ringing Set of Resolutions Adopted, Which
Can Be Endorsed by Every Democrat
in the Buckeye State--The
Convention Enthusiastic.

Graduate Auditorium, Columbus, O., Aug. 25.—Although "the fighting" was all over last night the auditorium and galleries were packed long before chairman Frey, of the state central committee called the democratic state convention to order, at 10:20 a. m. to day. Great demonstrations had been arranged for several places in the order of business notably in the entry of Mayor Johnson, the presentation of his name for governor, his acceptance and participation in the endorsement of a candidate for senator Hanna's place, and those expecting a good exhibition, were not disappointed. There were no portraits displayed in the hall as usual, and few of the faces of what are known as "old timers" had been seen about the hotels during the week, but they were not delegates.

Before the convention assembled, some of the Johnson men, who are opposed to Clarke, offered again to support John L. Zimmerman, for senatorial endorsement, but Zimmerman would not accept. Before Rev. John Hewitt offered prayer, one of the delegates displayed one of the Johnson banners, with a large portrait and the three cheers which followed by other demonstrations with the band joining in the chorus.

Mayor Johnson was loudly cheered as he entered the hall. After reviewing the work of the past campaign and congratulating the party on the present canvass, Mr. Frey announced the temporary organization and introduced Hon. G. M. Saltzger, as temporary chairman, who spoke as follows:

Mr. Saltzger's Speech.
Your presence at this gathering is sufficient proof that you are loyal Democrats.

I know how earnest you are; for many years I have been meeting with you in state conventions. Sometimes we have carried the fight to glorious victory; sometimes our labors have met with stinging defeat; but through victory and defeat you have nobly struggled that all the people should have the best possible government.

We are constantly receiving advice from republican newspapers as to what Democrats should do and I am sorry to say that it disturbs some timid Democrats and they are ready to give up some of their most cherished convictions to avoid criticism from the enemy. If we do our duty we can not avoid criticism; some one has said that criticism can be avoided by doing nothing, saying nothing and being nothing. But let us have our say, courageously, as wisely as we know how, and let the people judge.

By the favor of your central committee, I am asked to preside at this convention. I do not assume to speak to you with authority, but what I shall briefly say is the expression only of an humble member of our party.

The Democratic party was born at the foundation of this free government. It was baptized with the spirit

of fraternity, liberty, equality. Its adherents believe in the fundamental principle that all men are created equal, and that this shall apply in the administration of all governmental affairs; the very essence of the doctrine is that every man subject to its authority shall have a voice in the control and management of the government. Its adherents believe, therefore, in the virtue and intelligence of the masses; they are opposed to privilege and favors by legislation; they believe in all of the exalted sentiments in the Declaration of Independence and cling with reverence to the constitution of our beloved republic. Gentlemen, I urge you to believe that this is not mere phrase making, but an earnest declaration of some of the things the democratic party stands for and fights for.

I have no love for the self-styled democrat who seeks an excuse for voting the democratic ticket. I have no love for the so-called democrat who agrees with the penny-a-liner on republican and some so-called democratic papers, that the party is constantly making mistakes. We ought to expect the opposition papers to say that, because, if they are honest they do not agree with us, but there is abundant reason why we should not agree with them.

There are nearly a half million democrats in Ohio; the great body of them loyally and faithfully come to the polls each year and endorse the platform and vote the tickets made by conventions like this.

What a grand army of free men. Let us achieve something worthy of them. Let us say boldly the things we fight for. Let us name daring and good and true men for office, who will lead us forward to glorious victory in the cause of free, enlightened and efficient government.

We raise the banners which shall have inscribed upon them "war against tariff iniquities," and republicans who love, honor and justice will fight with us and for us. Three-fifths of the voters of Ohio are honestly opposed to a continuation of the wicked favors granted to beneficiaries under tariff laws. Those laws are diametrically and everlastingly opposed to the democratic doctrine—to the cherished American doctrine, of equal rights. Convince the people that you are in earnest and will carry this one reform into effect, and on that alone the majority will sweep you into power.

Why should they continue to vote with Mr. Hanna? Nineteen-twentieths of the voters of Ohio are also righteously opposed to Mr. Hanna's ship-subsidy scheme to draw money from the public treasury and bestow it on those already rich. Will a majority of voters consent that Mr. Hanna shall remain in power to further schemes by which some are enriched at the expense of the army?

The essence of the principle of protection is favoritism; wrongful advantages are given to particular pro-

ducers at the expense of the general body of consumers. And the republican party promises no relief. The "Iowa idea" gave hope to western sentiment on both parties that something might be done to lessen evils but by republican bosses it was strangled in the state where it was born, and the people now know that they can have no relief except through the democratic party. The "stand pat" and the "Hands-offers" have complete control of the republican organization, and the people must suffer a continuance of robbery and extortion unless the authors of this public mischief are turned out of power. And just now this tariff enormously heaps into the public treasury money useless there but much needed in the business of the people. The few are favored and the many are distressed. This continues to be a burning issue, and the masses know that the democratic party will carry out its pledge to reduce the onerous duties and stop the legalized larceny.

Shareholders may be gratified to know that the Steel Trust has over \$50,000,000 profit in six months, but certainly Americans, who know that the trust sells to foreigners at nearly one-half less than to Americans, ought to fight hard to lessen the duties on monstrous monopoly but enables it to rob the American consumer. Can any sane man want to maintain an average rate of 38 per cent. on steel to swell the profits of the billion dollar trust at our own expense?

The tariff system does shelter monopoly and trusts. Trusts are a menace to our republican institutions. The opposition party no matter what moves it pretends to make will never seriously impair the growing power of the trusts. The only hope for relief lies in the success of the democratic party.

Let us not lower or surrender our ideals on the subject of human rights. Let us maintain that America is the "free hearts hope and home," and that not only shall there be shelter to the oppressed of all nations, but that there shall not cease to go forth the sublime doctrine of liberty to all men everywhere. Proclaim anew that all men, not some men, are created equal, and are endowed with inalienable rights. It was never in the mind of the fathers that of those who should be sheltered under the folds of our starry flag, one should be free and another should be subject. The rights of men are not merely to be conceded at the will of despots or any one; they exist by nature; to secure these rights governments are instituted among men, not forced upon them.

I am not arguing questions, I am only trying to state what some of the matters are which demand our earnest support.

The Iowa republicans recommend that self government be conceded to the Philippines, so far as this is found practicable. Let us rejoice that the right to self government is recommended, but who is to determine when the concessions are found practicable? Senator Teller pointed the way in the case of Cuba. Let us insist that this exalted example be followed. The spirit that subjugated is the same that demands an increase in the standing army, and continuing increase in the navy. Washington warned us that overgrown military establishments are inauspicious to liberty under any form of government, and are to be regarded as particularly hostile to republican liberty. Instead of the modern boast that this nation is great let us rather, as of old, say our government is good. Our strenuous ruler in his giant strides across the continent, voices the military spirit. Gazing over the western sea, he exclaims, "We must dominate the Pacific."

Has the spirit of the fathers gone forever? No. It still abides in the breasts of the people. Let us firmly invoke this spirit and ask the people to respond.

It has always been declared of the Democratic party that the people

should rule. Because of human weakness the action of legislative bodies is often unsatisfactory to the people. In municipal affairs as well as in state matters the people should have a voice in determining the nature of the laws that govern them and also how franchises and privileges should be bestowed. In Illinois an election held on April 1, 1902, showed a majority of five to one in favor of state referendum. The sentiment is undoubtedly the same in Ohio. In Oregon the vote was eleven to one. In Ohio we may make it sixteen to one.

Every one knows the power to corrupt legislators by the use of money and other improper influences. It is not done so much as some assert, but the fact that it may be done at all makes it an imperative safeguard that the whole people may pass upon the laws. This is the nearest approach to true democracy in a populous country that can be had. The voice of the people should be given power whenever it can be expressed. In my judgment the time is opportune to declare in favor of the initiative and referendum. There is too much haste in changing laws.

Pecculation in the postoffice department and especially brought home to republican politicians of high rank again admonishes the people that although that party may create and foster monopolies in other matters, it has not yet secured a monopoly of honesty. It may be the general average of the Democratic party is no higher than the Republican on this score, but it is a good thing, when one party has been long entrenched in power and has become corrupt, to "turn the rascals out." The most shameful thing about it is, if it be true as reported, that the President, soon after Hanna visited him, said there should be no further public disclosure of what is discovered.

Think of that. The people are not to be informed of the workings of their government. Of course your Uncle Mark would have a hand in that. Stand pat and hands off, now while an election is pending. Keep the people in the dark.

In consonance with this spirit, the Republicans are committing themselves to a policy that should meet with approval. One of the dearest rights guaranteed to us is free speech, but in Pennsylvania, in Porto Rico, in the Philippines, the right is restricted. Is the movement to overwhelm us all when the pernicious influences that now control the Republican party feel free from restraint? Liberties encroached upon may be wholly destroyed. The press and the forum are the best safeguard. We have suffered from the venality of the one, because for a long time the fight has been largely between man and money, and money has power to persuade and to suborn witnesses, but let the fight go on.

The press may criticize us, and it ought to if we deserve it, but let us believe that there are great souls whose mighty thoughts on printed page, fly as swift winged messengers; and they will be convinced of the righteousness of our cause, and they will aid us to debase mammon and exalt man.

Have you heard of home rule and just taxation in Ohio? That suggests the name of one man who is in the mind of all of you. A name the synonym of honor, courage and conviction. We are proud to carry on the rolls of Democracy, the name of that chief, in whose earnest voice is always in the fore front of battle, who, undimmed by the greatness of the biggest boss of the Republican party, in the home of both, overcomes a normal Republican majority and brings to his city, home rule and the enjoyment of greater rights. All honor to that distinguished citizen, Tom L. Johnson.

The mention of his name is a speech itself on the things he stands for, and that Democracy stands for. He has won his fight because the people believe him sincere, and because he boldly stands for something. Why can't we have more Tom Johnsons spread over the state?

He won a fight against privileged corporations for lower street car fare. Why not make a fight for a fare of two cents a mile on the steam roads? Railroads themselves make a two-cent rate, but only to a portion of the people. Simple Democratic justice

requires that they treat all alike. We believe in equality, and this is a good place to insist upon it. The railroads would not be wronged; they undoubtedly would find it more profitable, and anyhow, why shouldn't the man with little means have the same right to ride for a low fare as one with more means. Let us make our theories of equal rights practical, and insist upon justice to the citizen without doing harm to a public corporation. They have this rate in Michigan; let us have it in Ohio.

In my little city of Van Wert, the governor of the great state of Ohio has appointed the board of public safety. In this instance he made good appointments, but they were made wholly without knowledge of the man appointed or of our local needs. We insist on our rights to self-government. Home rule is a charming, as well as a wholesome doctrine.

We cannot do better than to emphasize the platform of last year on the subject of home rule and just taxation. Taxation is a burden; it should be made as light as is consistent with good government and its burden should be equitably distributed.

Municipal ownership of public utilities in my judgment is democratic and when anything is democratic it is for the general welfare. I still believe that government is best which governs least, but the control of public utilities is municipal corporations is a business question, and not paternalism.

The only question that is made is that officials will not be honest in their control. It is democratic to have confidence in the people and the per cent of loss from corruption in any event would be much less than the exactions of corporations now enjoying public franchises.

There can be no civil progress except in the ordinary processes of the law. We are all shocked at the recent manifestations of brute force in the lynchings, burnings, and tortures, which are a disgrace to our civilization. But has not the example of disregard for law set by those who are greedily fattening on privilege and monopoly something to do with the spirit that prevails? Have we not as a nation gone mad in the rush for wealth, the frenzied struggle to get rich quick? And is there not a deep conviction that those who promote great enterprises have a sneering contempt for law and law makers? May this not then have encouraged others lower down to think that might makes right, and that cunning and deceit may ply their vocation unmolested?

And among them all the innocent citizen is made to suffer. Is there not in these days of prosperity a general lowering of the moral tone?

The success of Democracy is the sure cure for many of the evils that now afflict us. Monopoly would have to go; the trusts would be wiped out; tariff excesses would be cut off; public service corporations would have to pay for special privilege, and something of the spirit of General Jackson would creep into the enforcement of the law. But always, however, distinguished between oppression and the necessary exercise of lawful authority.

I do not wish it understood that only fault is to be found. We have much to be thankful for; we have been abundantly blessed with material things, and our magnificent commonwealth has made glorious forward movements, in spite of iniquitous laws.

Our courts may be as pure as any in the world, but there have been occasions when it seemed there was justification for saying: "Plate sin with gold and the strong lance of justice hurtless breaks; arm it in rags, a pigmy's straw doth pierce it."

Until the millennium there will be evil, politically as well as morally, and no matter how many blessings the people enjoy, it is our duty to insist that they shall not be deprived of any which they have the right to enjoy.

We don't want harmony in the Democratic party—not the kind that marks servile, abject submission. Out of discussion and contention let us hope to discover the truth, how best to discharge our civic duty, and how to select leaders that stand the fire of criticism.

STORMED ENTRANCE

To the Harbor and Three Large Battleships Enter the Port.

The Vessels and the Forts Burned Plenty of Powder in Carrying on Their Mimic Warfare Under Instructions of the War Department.

Portland, Me., Aug. 26. — Through dense smoke and amid the tumult of continuous cannon firing the battleships Kearsarge-Illinois and Alabama, entered this port early today, having stormed the main entrance to the harbor in connection with the great war game, which is going on this week in this vicinity. From midnight when the scouts of hostile fleet were discovered by the pickets of the army on shore, until daylight, when the battleships came up the channel, where the victory, if any, rests, is not apparent to those observers, the night was a sleepless one for all actually engaged in the maneuvers, and for many in the city. It was scarcely midnight when the search lights of the forts disclosed two torpedo boat destroyers in the outer harbor. Firing began at once and then ceased. An hour later the presence of a battleship, was revealed by the search lights, and several of the forts opened fire upon her. This vessel returned the fire and after that the cannonading became general. A cutter and launch containing landing parties were captured and at 7:25 a. m. all the outer forts were engaged in action.

FORTS STORMED By the Battleships Kearsarge, Illinois and Alabama.

Portland, Me., Aug. 26.—All the outer forts were engaged in action with the three big vessels, which afterwards, were recognized as the Kearsarge, Illinois and Alabama.

While two torpedo boat destroyers and other small craft had been detailed to the duty of threatening the various parts of the harbor, the movement against the channel had been reserved for the battleships. For more than an hour the big vessels stood off the main entrance to the harbor. At four o'clock they began the advance. With the Kearsarge leading and the Illinois and Alabama close behind, each belching broadsides at the forts, they slowly moved towards the city.

Forts Williams, Preble and Levitt poured uninterrupted fire toward the ships. In turn each ship seemed to concentrate fire on one fort after another until the vessels had reached the inner harbor. As the ships crept on, past the forts, the firing ceased slowly and by seven o'clock the echo of guns at the eastern side of the bay, where a minor engagement was going on, was all that could be heard. The battleships then maneuvered for a time and then they went back towards the outer edge of the harbor, where they began cruising about among the islands.

ONE HUNDRED THOUSAND

Austro-Hungarian Troops Must Remain in Service All Year.

Vienna, Aug. 26.—A hundred thousand Austro-Hungarian troops whose three years service expires in September, have been notified that they must remain with the colors until the end of 1903, in consequence of the Hungarian Diet not passing the bill

Early in the forenoon the scene of action shifted to the passage into Husseys sound between Peaks Island. From this vicinity great clouds of smoke were arising and the roar of many guns was heard and the Olympia leading a fleet against fort McKinley as at the main entrance they came in slowly. The Olympia was closely followed by the Baltimore. There were four other vessels in this fleet, the principle one being the training ship Newport. The others were the converted yacht Vixen and two torpedo destroyers Worden and Stewart. For a time the firing was as violent as that marking the passage of the battleships. Then the action ceased suddenly.

FORTS PASSED But Land Forces Have Framed Up An Explanation for That.

Portland, Me., Aug. 26.—With the interval in the long continued action, gave a chance to review the entire movement from midnight to midforenoon. The land forces claimed that though the battleships had passed the forts and entered the harbor, they were not able to take the city and had dropped back to the outer harbor to signal for reinforcements. Those coming up under lead of the Olympia had engaged the forts and anchored for a time to renew the attack later. While the ships were laying at anchor after the action the third section of the enemy's squadron, including the Chicago, two torpedo boat destroyers, one second class battleship and one large cruiser, joined the waiting fleet.

VICTORY WON By Army Under Col. Mills, Over a Portion of the Fleet.

Division headquarters, Fort Lovett, Cushing's Island, Aug. 26.—The army, under the command of Col. S. M. Mills, it is believed, gained a victory over a portion of the fleet commanded by Admiral Barker in an engagement which lasted for three hours this morning. Two phases of the maneuvers were worked out and both the army umpires claimed the victory. The fire was the attempt to land a force, begun shortly after one o'clock and was repulsed with heavy loss. The second phase was the attempt to run the batteries and was begun in the grey of the dawn. The army claims that the vessels in this attempt were destroyed by the mines. A discovery was made that the powerful search lights were able to penetrate the fog and the vessels of the attacking fleet were picked up at a distance of 10,000 yards.

RAIN WASHES OFF ST. LOUIS STREETS.

St. Louis, Aug. 26.—A severe electrical storm swept over St. Louis, early today, and resulted in heavy property damage. Fires were started in many different portions of the city by lightning, and within two hours 1.75 inches of rain fell. Sewers became clogged and streets flooded. No fatalities have been reported.

COMPLAINTS OF COOLNESS

**From Various States of the Central
Mississippi and Ohio Valleys.**

Washington, Aug. 20.—The weather bureau's weekly summary of crop conditions is as follows.

While complaints of coolness during the early part of the week are reported from the states of the central Mississippi and Ohio valleys, the temperature conditions throughout the country as a whole, have been very favorable. The upper Missouri and upper Mississippi valleys, lake region, and Rocky Mountain districts, the greater part of which has suffered from abnormally low temperature for several weeks, receiving more than normal heat. Portions of the south Atlantic states experienced heavy rains, while

the Ohio valley, the greater part of Texas and the Rocky Mountain, Pacific coast districts are suffering from drought. There was some damage in the northern portion of the Middle Atlantic states by local storms on the 19th. On the whole the corn crop has made favorable progress, and over the central and western portion of the corn belt, the most decided advance being reported from Nebraska and Kansas. In the upper Ohio valley, corn is suffering from rain. Which is also noticed in portions of Illinois and Missouri and much of the crop will suffer unless rain falls soon. The reports indicate that early corn will be safe from frost September 15th.

LIGHTNING DESCENDED

**Killing One and Severely Injuring Sev-
eral Others, Near Peoria, Ill.**

Peoria, Ill., Aug. 20.—A severe rain and electrical storm passed over Peoria, this county yesterday, doing considerable damage. While a number of people were congregating on the hotel porch, a bolt of lightning struck directly in front and killed George Pence, a foreman of a telephone construction force and severely injured three other men.

SERIOUSNESS OF SITUATION

**Indicated by the Enrollment of Double
Force Used in Turko-Grecian War.**

Constantinople, Aug. 20.—The government has decided to call to the colors all the remaining European troops belonging to the second and third army corps and a number of other reserves, which will bring the total of the Turkish soldiers in Macedonia up to 350 battalions, or almost double the force utilized in the Turko-Greek war. The enrollment of such large bodies of troops indicates the

seriousness with which Turkey views the situation and her determination to use all the means at her disposal to repress the rebellion. Ibrahim Pasha, the new commander of the troops, is a young and capable officer. Seven battalions have been despatched to Florida from Monastir.

The Vails of Monastir and Salonica telegraphed that they are now able to guarantee the maintenance of order in their respective towns.

**CLOUDY WEATHER

APPEARING OLD

**Acts as a Bar to Profitable Employ-
ment.**

You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain as long as possible one's youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair.

The presence of dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use. Herpicide makes an elegant hair dressing as well as dandruff cure.

Accept no substitute—there is none. Sold by Wm. M. Melville, old post-office corner. Send 10c in stamps for sample to the Herpicide Co., Detroit, Michigan.

THE LIMIT OF BARBARISM

**Has Been Reached in Macedonia Where
Bulgarian Extirpation Is
Contemplated.**

London, Aug. 20.—According to a Sofia telegram to the Times, the Turkish representative measures in Macedonia have reached the utmost limits of barbarism and it is evident that it is the intention to accomplish by degrees the total extirpation of the Bulgarian population. Within the last few days, says the Times correspondent, twelve more christian villages have been handed over the fire and sword and the women, children and the aged have been massacred indiscriminately. Converse of prisoners dispatched to Monastir have been murdered by their escorts on the way. A private letter from a foreign resident in Monastir says even the local Turks are disgusted and meditate assassination of the consuls in order to provoke European intervention. The insurgents are doubtless taking a terrible revenge and are executing the revolutionary program to the letter. The reported concentration of large Turkish forces in the Adrianople district at Mustafa, Pasha, Kizilagach and other points on the Bulgarian frontier is regarded with much apprehension in

Sofia as it is well known that in case of war in invasion would occur from this direction.

In the special dispatches from the near east published this morning, a gloomy view is taken of the crisis in the Balkans. According to reports from Constantinople a rumor was current that war had already been declared against Bulgaria. It was proved to be unfounded but the state of popular feeling is said to be such that no other issue is regarded as possible. It is further stated that although the Russian squadron was withdrawn from Inadia it continues to cruise near the Bosphorus. It is reported that several Italians have been murdered by Turks at Ismid, a seaport in Asia-Minor 13 miles southeast of Constantinople.

From Belgrade it is announced that a big mass meeting of Macedonians intended to be held Aug. 13 was postponed till August 30, account of Turkish protests. It is also stated from Monastir that the revolutionary committees are appealing to the christian population to refuse to pay taxes and that their appeal is meeting with much success.

Colorado**

By all odds the most intensely interesting way to California is through Denver and Salt Lake City, past all the magnificent Colorado scenery by daylight, and around Cape Horn on the Sierra Nevadas. Another thing about this route is its peculiar freedom from severe storms and washouts which cause vexatious delays. Generally the sun shines clear and bright all the way. Our Personally Conducted Excursion parties from Chicago and St. Louis go that way every week. Ask your nearest ticket agent about them, or send to me for one of our folders describing the trip.

R. E. Irwin and Wife Report Good Time at Dormal Reunion.

"Mac" Honored With Re-election as President of the Meeting. Items of Interest From Over South.

Mr. and Mrs. R. E. Irwin, of Grove, have returned from Logan county where they have been attending the annual reunion of the Donnal family. The meeting took place on the farm of J. W. Rudisill and was very well attended. We are unable to publish the program which was rendered, but it will appear later. At the election of officers R. E. Irwin was again honored with the presidency; J. D. Stout was made secretary and Mrs. Mary Stout was elected treasurer. Among those present at the reunion were R. E. Irwin and wife, J. W. Donnal and family, J. D. Stout and family, Bill Dives and children, Bert Johns and family, William Stout and family, John Collins and daughter, Will Rudisill and family and J. W. Rudisill and family.

Defective Flue.

At 20 this morning an alarm was rung from box 42 corner Central avenue and Eureka street. Many thought that the fire at the refinery was the cause of the alarm, but such was not the case as no alarm was turned in from the refinery at all. A defective flue had caused a small blaze at the house of Richard Moss, of 219 south Central avenue. Both departments made the run, but no house was laid. The blaze was extinguished with the chemicals and a few buckets full of water. The loss was about \$25.

Missed it.

Will Hoyer who went to Fulton county a few days ago to attend the Hoyer reunion was greatly disappointed. He was taken ill on the day of his arrival there and did not go to attend the reunion at all. He has not yet returned home being still confined to his room at Fulton.

George Fink of Cleveland, is the guest of his friend, Miss Virginia Mack at west Kirby street.

Jim Cramline and Ed Crossley went to Gomer this morning to hunt squirrels.

Mrs. Belle Davis and two children of Paulding were the guests last evening of R. E. Irwin and wife, of Grove avenue. They were on their way home after attending the Donnal family reunion in Logan county.

DROPSY

Caused the Death of W. T. Myers.

Returned Home From Cincinnati Three Weeks Ago and Died This Morning.

W. T. Myers, son of Mrs. Elizabeth Meyers, and a former well-known drug clerk in Lima, died at the home of his mother on north Elizabeth street this morning, at 5:30 o'clock, death being due to dropsy.

Mr. Meyers, who is 42 years of age, has been in the drug business at Madisonville, a suburb of Cincinnati, but came home, three weeks ago, unable to longer combat the disease which was gradually sapping his vitality. He grew weaker from day to day, and all hope of recovery had been dispelled long before the end came.

Th deceased leaves, besides his mother, three sisters and one brother, Mrs. Geo. Marth, of Van Wert, Mrs. Fred Herold, of Lima, Minnie Meyers, bookkeeper at Piper's grocery, and Edward Meyers, of Dayton. Funeral services will be conducted at the house Friday morning at 10 o'clock.

Dr. Caldwell's Syrup Pepsin

Mrs. Mary O. Hahn No. 203 Michigan Ave., Chicago, Ill., writes: "Eight years I have been troubled with biliousness caused by laxity of the liver. I had dizzy spells at times, pains across my back and a tired, heavy feeling, with loss of appetite and nervousness. One day a physician prescribed some liver tablets which certainly did not help me in the least. I took Apollinaria and other mineral waters, but my complexion became more yellow and my general health worse. Reading one of your little booklets, I decided to give Dr. Caldwell's Syrup Pepsin a trial and am so glad I did. One bottle did more for me than ten dollars' worth of other remedies. I knew at once I had the right remedy. I kept taking it for several weeks, when I considered myself completely cured. My skin is as white and smooth as a baby's and I feel in excellent health and spirits, thanks to your remedy."

POPULATION

By the Twelfth Census Was 84,233,069.

From the Hon. W. R. Merriam's "Noteworthy Results of the Twelfth Census" in the September Century.

The total population enumerated by the twelfth census was 76,303,387, but while the area of enumeration covered Alaska and Hawaii it did not include Porto Rico, the Philippines, Guam or Samoa. The population of these newly acquired islands has, however, been ascertained partly by estimates and partly by special censuses. Including these estimates, the total population of the United States and its outlying possessions in 1900 was as follows:

Area of enumeration	76,303,387
Philippine Islands	6,261,339
Porto Rico	953,243
Guam	9,000
Samoa	6,100

Total 84,233,069

The only countries surpassing the United States in number of inhabitants are the Chinese Empire, the British Empire, the Russian Empire, and probably France, with the inclusion of its African possessions.

LONG

Years of Searching Rewarded,

But Condition

Of the Unhappy Woman Brings Sorrow

To the Relatives Who Are Residents of the Town of Van Wert.

Woman Who Has Been Missing Nineteen Years Is Found by Her Brother in an Insane Asylum in Denver.

A despatch from Denver, Colo., dated last night, says:

"After a 19 years' search for his sister, Wm. Hannafus, of Van Wert, Ohio, this morning located her in the insane ward of the county hospital."

Shortly before noon, Mr. Hannafus rushed into the courthouse and sought George Bachenburg, investigator of poverty cases.

"It's she," he cried. "I've found her at last—crazy."

Then the poor fellow broke down and cried bitterly. Nineteen years ago Susie Ferry left her old home at Van Wert, Ohio, for parts unknown to any of her relatives or friends. She was married at that time, but her husband is said to have mistreated her. She had considerable property but this was soon dissipated. It is said, owing to her husband's conduct.

Determined to rid herself of him at any cost, the sorrowing woman left her home and wandered all over the country.

Several years later Ferry learned that his wife's mind had become unbalanced, and that she was in the state insane asylum, having been committed there from Fremont county. Ferry secured her release and brought her to Denver, where she was placed at 1332 Hazel court.

Soon after this George Kaylor, of 2321 west 31st avenue, signed a complaint that Mrs. Ferry was insane, and the woman was committed again, but this time to the county hospital, where she has been confined in the ward for the insane ever since. Her husband went to California a long time ago and is still there.

Searched Long For Sister.
During all these 19 years Mrs. Ferry's brother, Wm. Hannafus, maintained a search for her.

The meeting between brother and sister was sufficient to move the hearts of the hospital people, accustomed as they are to pathetic sights.

"Nineteen years of search at last fruitful," Mr. Hannafus said this noon, "but to find her in an insane asylum. Her mind has undoubtedly become turned owing to her husband's former treatment of her. I shall take her to Van Wert this afternoon and nurse her back to health if I can."

The Thrust of a Lance
is scarcely more agonizing than the recurrent pains in the abdomen which follow the eating of improper food or too free indulgence in ice-water. The immediate cause of cramps and colic is often the distention of the bowels by gas. Quick relief follows the use of Perry Davis' Painkiller. Careful housekeepers give it the place of honor in the family medicine chest.

KILLING WHALES WITH PITCHFORKS AND HATCHETS.

St. Johns, N. F. Aug. 26.—A school of 143 small whales has been driven ashore at St. Marys Bay, and was unable to retreat. The men and women waded waist deep into the water, and killed them all with hatchets, scythes and pitchforks.

REVOLUTION SPREADING

Almost to the Gates of the Sultan's Capital. The Villages Pillaged.

Sofia, Bulgaria Aug. 26.—A revolutionary band has appeared at the village of Tcherkesko, between Adrianople and Constantinople, within six hours of the Sultan's capital. The insurgents and Turks fought and afterwards the villages were pillaged and destroyed. The Macedonian fugitives in Bulgaria are preparing to send a deputation to St. Petersburg to inform the czar of the pitiable condition of Macedonia and to beg for his intervention. The Bulgarian archbishop of Varna has promised to hold the deputation, which is now awaiting the permission of the holy synod to enter Russia, such permission being necessary when a foreign prelate wishes to visit the Russian empire.

Taken With Cramps.

Wm. Kirmse, a member of the bridge gang working near Littleport was taken suddenly ill Thursday night with cramps and a kind of cholera. His case was so severe that he had to have the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around next day. The incident speaks quite highly of Mr. Gifford's medicines.—Elkader, Iowa, Argus.

THE WEATHER.

Washington, D. C., Aug. 26.—For

**PLACE MONEY

**Servian Troops Backward About
Fighting Because They Have
Not Been Paid.**

London, Aug. 26.—According to a
despatch from Belgrade, Servia, many
of the soldiers belonging to the re-
serves called out by Turkey are de-
clining to join the colors as the troops
in the field have not received any pay
for months.

**LATER REPORTS
MORE FAVORABLE.**

Cleveland, O., Aug. 26.—The condi-
tion of Senator Hanna was taken
up in his office yesterday, was much
improved today. The attending phy-
sician expresses the belief that the
senator will be able to be out by to-
morrow or next day.

**BROOM MAKERS
IN CONVENTION.**

New York, Aug. 26.—Representa-
tives of many of the largest firms in
the country engaged in the manufac-
ture of brooms, met today, in this
city, for general discussion on the
need and opportunity for a combina-
tion of broom manufacturers. No deci-
sive action will probably be taken un-
til tomorrow.

**DOES NOT DESIRE
TO MISS ANYTHING.**

Rome, Aug. 26.—The Italian govern-
ment has appointed senator Augusto
Pierantoni, professor of international
law, to be counsel for Italy in the
question of the preferential rights
claimed by Germany, Great Britain
and Italy in the settlement with Ven-
ezuela. Senator Pierantoni has had a
conference with Vice Admiral Morlin,
minister for foreign affairs, and leaves
Rome tomorrow for the Hague, with
the view of being present at the first
meeting of the arbitration court.

NOMINATED.
(Continued From First Page.)

Is it not evident that Mr. Hanna is
the Republican party in Ohio? Was
there any discussion as to who should
be their candidate for governor? Was
there not rather prolonged silence
waiting to see whom Mr. Hanna would
select? Has any autocrat in the world
greater power? Not only does he dic-
tate candidates and dictate the laws,
but now we are to have the experi-
ment in Ohio, hitherto untried, of hav-
ing the fundamental law tinkered by
the aid of party. And the boss dic-
tates what shall be done by the party.
So the boss changes the fundamental
law. The organic law was meant to
be stable and enduring; not to be
changed for light or transient causes.
The most deliberate consideration
should be given to any proposed
amendment. But if the party meth-
od is to succeed, the boss can change
the organic law as easily as a statute,
and like another Ulysses, he carries
off the very palladium of our liberties.
I am in favor of at least one of the
proposed changes, but I wish to vote
on it as a citizen, free from party dic-
tation, and I desire to raise my voice
earnestly against this dangerous ex-
tension of the power of any boss or
set of bosses.

The Republican party has become
the champion and protector of the
great interests which receive special
privileges from the government. Why
should any voter who believes in
equity and equality give that party
his support?

There is, or was, in our county this
year a Republican candidate for the
nomination for representative. He
gave out two thousand meal tickets,
saying that the way to reach the voter
was through his stomach. Democracy
denies that. It was taught by its
great founder to believe that the peo-
ple have intelligence and honesty
enough to rule, and we appeal to that
intelligence and that honesty to sus-
tain our cause.

Let us admire sincere and zealous
Republicans: they are patriots and
love their country; and when by the
force of argument and logic of events,
they join our ranks, their sincerity
and zeal will be a valuable aid for
Democracy, for just laws and good
government. The drones will never
help anybody or themselves.

There are other questions, questions
of grave import, of which I have not
spoken, but I am reminded that the
convention has work to do.

Let us restore the ancient bounds
of the constitution, overthrow the
greed that controls the government,
and secure to the people their right to
rule.

There is much on which we can
present a united front to the enemy
and win victory for the people. Let
us renew the covenant of Jeffersonian
faith, gird on the armor of patriotic
fervor, and combat for liberty and
law.

"Tis not in mortals to command
success.
But we'll do more, we'll deserve
it."

Mr. Saltzgeber was frequently inter-
rupted by applause, especially in his
discussion of what are termed the
progressive views of Johnson and at
the mention of Johnson's name, there
was quite a demonstration.

The Johnson Delegates Seated.
The majority report on credentials,
for seating the Johnson delegates
from Hamilton, Gallia, Ross and Seb-
eca counties, was greeted with cheers.

Then followed the minority move-
ment, first with a motion relative to
Miami county which was considered
their strongest case, and a discussion
followed. The speakers for the minor-
ity were frequently interrupted by
calls to "sit down" and other demon-
strations. The minority report was
defeated by an overwhelming vote
and the chair held that the demand
for a call of the counties was not
heard in time. The majority report
was adopted without motions on the
contests.

J. H. Goeke Made Chairman.
J. H. Goeke, of Wapakoneta, was
then elected and introduced as per-
manent chairman and addressed the
convention.

TWO REPORTS

**Presented by Committee on Rules and
Order of Business.**

Majority and minority reports on
rules and order of business, were
presented. The former provided for
the endorsement of a candidate for
senator and the latter making no
such provision. Webster Huntington,
on supporting the minority report,
said the organization of this conven-
tion had demonstrated that a conven-
tion was now as close to the people
as the legislature.

who were furnishing ammunition for
the republicans.
Judge Ulric Sloan strongly support-
ed the minority report, and met with
a chorus of calls for "the question"
as was Newton B. Baker, of Cleveland,
in a most earnest support of the ma-
jority, when amid great confusion,
the chair declared that the previous
question had been ordered, and also
a call of the counties properly demand-
ed.

When the balloting began, the vote
on substituting the minority report for
the majority report resulted 211 ayes,
446 nays. This was the first test in
the convention, and roll call between
the Johnson and the Zimmerman
men.

Majority Report Adopted.

The majority report on rules with
provision for the endorsement of a
candidate for senator, was then adop-
ted after which the committee on res-
olutions reported the platform, which
was adopted, as follows:

The Platform.

"Assembled in convention at Colum-
bus, preparatory to the state election
of 1903, we the democrats of Ohio, re-
affirming the declaration on national
issues in our platform of 1902, adopted
at Sandusky, hereby renew our alle-
giance to the democratic party of this
nation, and again avow our devotion
to the principles of its last national
platform. We accordingly condemn
colonialism and imperialism, denounce
trusts and trust fostering tariffs, rep-
udiate government by injunction, and
oppose financial monopoly, together
with every other legalized monopoly
and legalized privilege. Adhering to
these principles of the Kansas City
platform, we repeat our condemnation
of all efforts to renounce or ignore
them."

While the platform contains over
1,600 words, the above paragraph is
the only reference to national issues.
The people are asked to determine
whether all state interests are to be
sacrificed, for the re-election of Han-
na as senator.

"By embodying in the new Ohio
code, unwise and unjust provisions
for the regulation of street railroads,
republican managers have rendered
competition more difficult, and street
car monopoly more secure. By reserv-
ing to the governor, the power to ap-
point municipal officers in certain
cases, they have dangerously concen-
trated the police power and have com-
plicated their meagre concessions of
home rule with tempting opportunities
for interference by the state govern-
ment in the local affairs of cities and
villages. A precedent has thus been
set that would altogether nullify the
principle of home rule."

"The corrupt union which the repub-
lican managers of Ohio, treacherous
alike to the rank and file of their own
party, and to the rest of the people
have made with privileged corpora-
tions, is further shown by the recent
history of Ohio taxation. After re-
peated acknowledgements by the re-
publican party, in its platform and
other public declarations, of the in-
justice of existing tax laws, the re-
publican legislature has rejected even
the simplest remedies. The law by
which the telephone and express com-
panies are taxed, proves a sample
method of arriving at the real value
for taxation of steam railroad, street
railroad and similar classes of fran-
chise property. Yet the republican
legislature refused to apply that meth-
od to the property of those powerful
corporations. It has retained the ob-
jectionable laws under which, with
the aid of friendly state equalizing
boards and local auditors, steam rail-
roads and street car companies have
for years been able to shift from
themselves to the small owners and
the farmers of the state, two-thirds of
the burden of taxation which in jus-
tice these corporations ought to bear."

"That the alliance of republican
leaders in Ohio with the privileged
corporations has the aid of some Ohio
democrats is freely conceded. But
these democrats are not in control of
the democratic party of the state; and
that party as now organized is rebuk-
ing and disowning them as fast as it
finds them out. While conceding that
some Ohio democrats are corruptly
allied with the privileged corporations,
we ask the people of the state to ob-
serve an important fact in that con-
nection. In the democratic party as
now organized, democrats who serve
such alliances are punished; whereas
in the republican party as now con-
trolled, republicans who make such
alliances are rewarded."

"The present laws for assessing the
property of all public service corpora-
tions should be so changed as to com-
pel the assessment of those properties
at not less than their saleable value
as going concerns, and to prevent their
evasion of just taxation."

The platform favors home rule for
counties and cities, assessing boards,
the constitutional amendments for
classification of property for taxation
and single liability of stockholders,
laws for public reports of corpora-
tions and auditing of the same, vari-
ous reforms in school laws, abolish-
ing the fee system in county offices,
the improvement of the Ohio river,
maintenance of canals, and uniform

rate of two cents per mile on steam
railways.

It denounces the proposed amend-
ments for single county representa-
tion, governors veto and classification
of cities, government by injunction,
free passes for public officials and
numerous abuses in the legislature
state and local offices.

"The municipal code should be so
amended as to require that all or-
nances granting, renewing, extending
or modifying, franchises shall be in-
operative until confirmed by a ma-
jority vote of the people of the munic-
ipality, and to prohibit perpetual fran-
chises altogether. We pledge our-
selves also to the principle of the in-
itiative and referendum in all other
matters of legislation. In doing this,
we emphasize our integrity of the peo-
ple and our belief that they should be
permitted to retain in their own hands
such of their sovereign power as is
compatible with convenient transac-
tion of public business."

Whereas, railroad and mining cor-
porations have gone into the business
of insuring against accidents and
death among their employees, fixing
the rates of insurance arbitrarily, and
compelling employees, as a condition
of employment, not only to invest in
such insurance, but to waive all claims
for injury sustained in the course of
their employment, both in their own
behalf and in that of their dependents,
and whereas, such contracts of waiver
are opposed to public policy; there-
fore, we favor the enactment of laws
making null and void all contracts by
employees of railroads and mining
corporations, and of other employees
for the waiver or forfeiture of claims
for injuries sustained in such employ-
ment. We also favor the enactment
of laws, abolishing the defense of fel-
low servants negligence in claims
against employers for injuries sustain-
ed by workmen in the course of their
employment."

"Until United States senators are
required by amendment of the federal
constitution to be elected by popular
vote, nominations of candidates for
United States senator should be made
by state conventions."

William Jennings Bryan, by special
resolution, is invited to speak in Ohio,
in support of these declarations of
principles.

MINORITY PLATFORM

**Presented By Judge Hagins, of Spring-
field, is Defeated.**

Columbus, O., Aug. 26.—Judge F.
M. Hagins, the fellow townsman of
Zimmerman, at Springfield, presented
a lengthy platform in the minority re-
port, the convention becoming very
impatient and noisy before its read-
ing was completed. It was largely
on national issues and did not en-
dorse either the Chicago or Kansas
City platforms. Hon. M. A. Daugherty,
who was chairman of the state com-
mittee two years ago, when Col.
James Kilbourne headed the ticket for
governor, stirred up the convention
in an argument for the minority re-
port.

While Daugherty was pouring forth
his arguments against the majority
report, the convention became so
demonstrative that he could not pro-
ceed. The chairman with all his ser-
vants at arms could not restore order
until Mayor Johnson arose and appeal-
ed to his friends to give Daugherty a
respectable hearing.

The minority was overwhelmingly
defeated on a viva voce vote. The re-
sult was received with loud demon-
stration as was the vociferous vote on
the adoption of the majority report.

JOHNSON NOMINATED.

**His Name Presented by John E.
Clarke, of Cleveland.**

After the adoption of the platform,
much time was devoted to supplement-
ing resolutions affecting the proposed
constitutional amendment, and it was
finally decided to support the one for
each county to have separate repre-
sentation in the legislature. John E.
Clarke, of Cleveland, prospective candi-
date for senator, was greeted with
a great ovation as he took the plat-
form to present Johnson's name for
the nomination for governor. The
convention went wild in demonstra-
tions during his eloquent eulogy of
Johnson, and arraignment of Senator
Hanna. While eulogizing Johnson as
the greatest of American state issues,
he also lauded his views on the tariff
and other national issues.

After Mr. Clarke concluded, Judge
Hagins announced that Clarke county,
the home of Zimmerman had no candi-
date and Johnson was nominated by
acclamation, amid the wildest
scenes.

Johnson then made a stirring
speech of acceptance, on state issues
in line with the platform.

During Johnson's speech, the demon-
strations were without precedent,
as he discussed home rule, equitable
taxation and the alliance between the
republicans and corporations at
length.

Johnson Has It All His Own Way.
Columbus, O., Aug. 26.—It looks at
this time as though Mayor Johnson

would have everything his own way
in the selection of the ticket at the
democratic state convention, and that
the ticket would be Johnson for gover-
nor; A. W. Patrick, of Tuscarawas
county for lieutenant governor; Chas.
Kloeb, of Mercer county, for auditor
of state; J. H. Secrest, of Putnam
county, for state school commission-
er; J. H. Blocher, of Ross county, for
member of board of public works, with
G. M. Saltzgeber, of Van Wert, as the
candidate for United States senator.

NORTHWESTERN OHIO

**Figured Largely in the Work of the
Convention.**

Columbus, O., Aug. 26.—(Special)—
Northwestern Ohio figured largely in
this year's state convention. Not
since the days of the late revered
Senator Calvin S. Brice, has the west-
ern and northern tier of counties play-
ed such a prominent part in a state
gathering.

Only the reiteration of close friends
that it would not be all pleasing to
Hon. Walter B. Richie, kept the Lima
man's name from being presented for
endorsement at this gathering. When
Congressman Garber, of the fourth,
had the props knocked from under
him by the withdrawal of Bookwalter,
he was lining up all his old acquaint-
ances for conferences as to some
promising man to make an entry for
the endorsement.

In his running about, he met Ralph
LeBlond, the little Waseon editor,
who, when it comes to state politics,
is pretty wise. LeBlond first pro-
posed Richie and Garber grabbed at it
but the friends of the Lima man said
he would have nothing in that line on
a Johnson platform, so LeBlond im-
mediately sprung Saltzgeber. It went
with a rush, and was taken up by
other districts. If Saltzgeber gets the
endorsement, he owes it to the ex-
Celina boy.

LeBlond also played a winning hand
in the ninth district politics. He is a
delegate from Waseon, and Wood,
Pulton and Ottawa had 17 votes this
year as against 15 in Lucas, the fourth
county of the district. It was the first
time in the history of state politics
that the three counties had greater
representation than Lucas, and the
trio combined deposing John Boian
the old line leader as state committee-
man.

There was no one to dispute the
leadership of Johnson last night. He
has everything as he pleases. There
is a wonderful falling off in interest,
and the unseating of the Locle is
and regular chosen delegation from
Hamilton about capped the climax.

The rules and order of business
committee met last night and John-
son controlled it. They recommended
that the nomination of governor pre-
cede that of senator, which means that
the Hon. John Clarke, in nominating
Johnson will have the opportunity
to stampede the county delegates in
his own behalf for the endorsement.
Clarke is considered a wonderful orator,
and it is thought his appeal today
will have great weight on the vote
that will be given him.

District Committee.

At the meeting of the district dele-
gations last evening the following
members of the various committees
were selected from the Fourth dis-
trict: Committee on credentials,
Robert Anderson, Auglaize county;
committee on resolutions, G. W. Phil-
lips, Mercer county; committee on
rules, John H. Klatte, Allen county;
vice president, Peter Goffine, Shelby
county; permanent organization, John
Huddekin, Darke county; member
state central committee, Val Lee,
Shelby county.

**LIPTON STILL
HAS HOPES.**

**He Is Surprised That the Shamrock III
Was Handicapped 19 Seconds
in Yesterday's Race.**

New York, Aug. 26.—Shamrock ran
out of yesterday's squall without the
slightest damage, although the big
anchor was dropped as an additional
precaution. There was no particular
evidence at Sandy Hook today of last
night's blow, except the broken bow
sprit of the Giralda.
C. O. Iselin aboard the Sunbeam,
the defender's tender, said that as far
as he knew, there was no material
damage to any one. Mr. Iselin, Capt.
Barr, and designer Herrischoff, of the
Reliance, had a long conference today,
but Mr. Iselin refused to say anything
for publication as to its character.
Herbert C. Leeds today, said C. D.
Mower, measurer of the New York
Yacht club, was expected later in the
day, but it was not anticipated that
any change in the sailing length of
the Reliance would be found.
The time allowance under which
the Reliance, Constitution and Coun-
bia have sailed in the preliminary
race this year, was made known today.
These times have been kept secret.
Reliance allowed the Constitution one
minute and 46 seconds, and Columbia
2 minutes and 41 seconds in all races.
By these times, it is figured that Con-
stitution won two races from Reliance
but Columbia failed to score. Reli-
ance sustained no damage whatever
in yesterday's squall.
Sir Thomas Lipton refuses to give
up hope. He was very much sur-
prised today to learn for the first time
that the Shamrock III was handi-
capped 19 seconds at the start of yester-
day's race. "That's very bad," he
said, but made no other criticism.

**ILL FATED
POWDER MILL**

**Wrecked by Second Explosion Within
a Month. Four Men Killed.**

Carthage, Mo., Aug. 26.—An explo-
sion at the works of the Independent
Powder company, situated four miles
southwest of Carthage, on Centre
Creek, early today, wrecked the mix-
ing room, killing three persons and
injuring three others, one fatally.
The dead: W. O. Roll, superintendent;
Ernest Pearman, Jerry Haworth
all of Carthage.
Thirty workmen escaped injury. To-
day's explosion is the second to occur
at the Independent Co.'s works within
a month. The mill had just been re-
built and the making of dynamite for
blasting in the lead and zinc mines of
this territory resumed. When the ex-
plosion occurred, Supt. Roll and Pear-
man and Haworth, were all in the
mixing room, which is secluded from
the other ten mill buildings, behind
a hill.
Horrible Details.
Supt. Roll's legs were blown off be-
low the knees and the bodies of Pear-
man and Haworth, were blown into a
hundred pieces. Roll was well known
manufacturer of powder, having been
connected with Indiana mills for fif-
teen years before coming here two
years ago.

BIG FIRE AT THE SOLAR.

Portion of the Paraffine Works De-
stroyed This Morning.

Thousands of Dollars Worth of Machinery and
Tons of the Highest Grade of Paraffine
Lost in the Flames.

The Solar Refinery suffered a loss from the most disastrous fire in many months, this morning at 7:45. The loss will run well up into the thousands but it cannot be estimated until the fire is out and the ruins examined.

The "taut press room," the building in which the paraffine is pressed and packed away in barrels, ready for shipment, is a total loss, and with it about sixty tons of paraffine and thousands of dollars worth of machinery. While the loss will be heavy, it is considered one of the luckiest fires that has occurred at the refinery in years.

Standing not more than six or eight feet from the burning buildings are a number of tanks filled with paraffine and it seems a miracle that they did not catch fire and go with the rest of the works.

The fire was discovered by a couple of workmen about 7:45 this morning. When the flames were discovered a space about the size of a barrel head was burning on the floor upstairs. The men ran to get the hose and put out the blaze, but when they returned the whole floor was all in flames. Being covered with the paraffine

it was of course impossible to extinguish it. Paraffine simply can't be put out with water. In fact water makes it worse. As many men were put to work on the fire as could be used with the limited quantity of hose at hand, and a telephone message was sent to Chief Coates, asking for one thousand feet of hose which was sent at once. By eleven o'clock the men had the flames pretty well under control, though it will probably take all day for the fire to burn out. The building is a total wreck, most of the walls having fallen in. Also about sixty tons of paraffine which was just ready for the barrels, and all of the machinery in the plant so that the loss will be heavy.

The origin of the fire can only be conjectured. From the place where it originated, it seems very likely that it was caused by the burning out of a fuse beneath the second floor.

A large number of men were employed in the plant all of them getting out safely except Dave Watters who was cut on the forehead by a falling door. All of the men lost their clothes as the fire spread so rapidly that no time was given them to save anything.
